### WEBER'S LUNCH ROOM AND BAKERY

## The Waste of War

The war, that now engulfs Europe, is only a preface to the story of sorrow and desolation that will follow.

The lives that are lost, the cities that are destroyed and the resources that are wasted will have their greatest effect upon future generations.

Until the last chapter is reached there will be a story of stagnant industries, desolate homes, barren fields and fatherless children.

While this great conflict of waste is being waged we Americans are fighting the Battles of Peace.

An army of 150,000 men and women enlisted in the ranks of the Bell System serves the telephone wants of the American public.

Over 6000 of these people work right here in the seven mountain states every day of the year.
